DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-7 and 9-17 are rejected under 35 U.S.C. 102(b) as being anticipated by Seamon (US application no. 2002/0121322). Seamon discloses a pocket for business accessory comprising: a flap (11) joined along a base edge, a pair of side edges and a front edge; and a pair of elastic strips (elastic webbing 14) connected between each side near the front edge and a location on the business accessory so that portions of the side edge, between the base edge and the elastic are free of attachment with the business accessory. See Figures 1-4 embodiments.

With respect to claims 10 and 17, note the base piece (inner wall 15) defining a perimeter seam with respect to a surrounding surface of the business accessory.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Seamon.

Art Unit: 3728

With respect to claim 8, official notice is taken that it is old and conventional to provide a patch having a decoration on the flap to make the business accessory aesthetically more pleasing to the consumer.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Shown are business accessories analogous to applicant's instant invention.
